APHORISMS IN ARABIC CALLIGRAPHY

Thank you so much for choosing this design from our collection!

What I love most about proverbs is their ability to express deep feelings in just a few words. Our Arab culture, like many others, is rich with proverbs that reflect universal life situations, memories, and historical human experiences. We all share these connections, despite our different languages.

I hope you enjoy using this design for home decor, mugs, eco-friendly shopping bags, or t-shirts—whether for yourself or as a thoughtful gift.

Please remember, my friend that this design is for personal use only.

Love you

Samouha

What You will Receive

Thank you again for your order! Your purchase includes high-quality print-ready files designed to work with both home printers and professional print services.

✦ INSTANT DOWNLOAD – Printable Arabic Calligraphy Art

Your Files Include:

What you receive after purchase:

- **High-resolution PNG**
- **Transparent Background PNG – perfect for T-shirts, mugs, tote bags.(for most designs)**
- **Print-ready PDF file – for professional printing**

Translations:

Each proverb or saying is accompanied by either a literal translation (if possible) or a similar meaning in English, French, and German... to help you understand the meaning.

Usage:

✓ **Personal use only** (T-shirts, mugs, wall art, bags)

✓ Print at home or at any print shop

✗ **Commercial resale of digital files is not allowed**

Because this is a digital product, no refunds are available. For personal use only.

Printing by Product Type

T-Shirts

Specification	Recommended
File Size	12" x 16" (30 x 40 cm) minimum
Resolution	300 DPI
Print Method	DTG, Screen Print, or Heat Transfer
File to Use	PNG (transparent background) or PDF

Printing Options:

1. **Local Print Shop:** Search for "custom t-shirt printing" in your area. Most shops accept PNG/PDF files directly.
2. **Online Services:** Upload your file to print-on-demand services (see recommendations below).
3. **DIY (Heat Transfer):** Use iron-on transfer paper with your home printer. Print the PNG file in mirror/reverse mode.

Pro Tip: For dark-colored shirts, the transparent PNG will work best as the printer can add a white underbase automatically.

Mugs

Specification	Recommended
File Size	8.5" x 3.5" (21.5 x 9 cm) - standard wrap
Resolution	300 DPI
Print Method	Sublimation printing
File to Use	PNG or PDF

Printing Options:

1. **Photo Labs:** Many photo printing services (Walgreens, CVS, etc.) offer custom mug printing.
2. **Online Services:** Specialized mug printing services accept direct uploads.
3. **Local Print Shops:** Some offer sublimation mug printing services.

Note: Sublimation printing requires special coated mugs. Regular DIY mug printing kits are also available online if you want to try at home.

Tote Bags

Specification	Recommended
File Size	10" x 12" (25 x 30 cm)
Resolution	300 DPI
Print Method	Screen print or Heat Transfer
File to Use	PNG (transparent) or PDF

Printing Options:

1. **Local Print Shops:** Most custom apparel printers can handle tote bags.
2. **Online Services:** Many POD services offer tote bag printing.
3. **DIY:** Iron-on transfer works well for canvas tote bags.

Recommended Print Services

Online Print-on-Demand (Worldwide)

Printful

Society6

society6.com

Premium products, artist-focused

Regional Options

- **UAE:** Print Arabia, Print Online ae, Easyprint UAE
- **USA:** Custom Ink, VistaPrint, local UPS stores
- **UK:** Vistaprint UK, Prodigy, local print shops
- **Germany:** Spreadshirt, Shirtee, local Druckereien
- **France:** Vistaprint FR, local imprimeries
- **Canada:** VistaPrint CA, local print shops
- **Australia:** Vistaprint AU, local printers

Troubleshooting

Colors look different when printed

This is normal! Screens use RGB color mode while printers use CMYK. Slight color shifts are expected. For best results, use the PDF file which is optimized for print color profiles.

Image appears blurry or pixelated

Make sure you're printing at the correct size. Don't stretch the image beyond its intended dimensions. Use the PDF file for large format printing as it's vector-based and scales without quality loss.

Print shop says file is too small

Our files are provided at 300 DPI at the recommended print size. If a shop requests a larger file, ask them for their specific requirements. You can also provide the PDF version which contains vector data.

White background shows up on dark shirts

Use the PNG file with transparent background. The PNG we provide has no background - if white is appearing, check your print settings or ask the print shop to ensure they're using the transparent version.

Mug design doesn't wrap properly

The mug file is designed for standard 11oz mugs. If printing on different sizes, the design may need adjustment. Contact us if you need a custom size.

Quick Reference Checklist

- ✓ Choose the right file format (PNG for most uses, PDF for professional shops)
- ✓ Verify print dimensions match your product
- ✓ Ensure 300 DPI resolution setting at print shop
- ✓ For dark shirts: use transparent PNG
- ✓ For DIY: use mirror/reverse mode for iron-on transfers
- ✓ Request a test print for large orders
- ✓ Keep your files backed up for reprints
